

# Remote I/O for Allen Bradley Protocol

EthernetIP Input/Output from Process Solutions Corp.

## EthernetIP Remote I/O for AB Protocol

This Ethernet IP Remote IO Adaptor is compatible with Allen Bradley automation HMI controllers. These remote input / output adaptors feature a local display to allow easy integration into your existing Allen Bradley PLC automation system. Not only are our Ethernet IP Adaptors in-stock and ready to ship, they are offered at a lower cost compared to Allen Bradley OEM input / output.

## Preprogrammed for Easy Plug-and-Play Setup and Use

Preprogrammed for easy plug-and-play setup - simply enter the IP address into your Allen Bradley PLC system to integrate an unlimited, expandable I/O

## Features

- In-stock remote I/O units compatible with Allen Bradley HMI
- Universal, Flexible Input Channels:
  - RTDs
  - Thermocouples (TC)
  - and more
- Low cost instrumentation with more flexibility
- In-stock and ready to ship

## EthernetIP Remote Input/Output Adaptor for Allen Bradley

This EthernetIP Remote I/O adaptor offers numerous input channels and can monitor a wide range of instrumentation including RTDs, thermocouples, and more. In addition to being highly capable, these EthernetIP I/O modules offer unlimited expandable I/O, which means you can monitor a massive environment of instrumentation and equipment after connecting just one additional I/O adaptor.
