

Automation and Control Products

Line Sheet from Process Solutions Corp.

- Intrinsic Safety Isolators
- Signal Conditioning with ModBus Connectivity
- SIL 2 & 3 Rated Smart Safety Converters
- Temperature Transmitters
- Digital Displays (LED, LCD)

- All-in-One Controllers, HMI, I/O, and Networking
- Remote Monitor and WebMI
- Free HMI / Logic Configuration Software
- Local / Remote IO
- UL Class I, Division 2
- Sunlight Readable Display
- I/O Smart Rail

- Industrial Ethernet Switches (with RJ45 & Fiber)
- Cellular Modem & Routers
- Protocol Converter
- HMI Displays & Panel Meters
- ProductVity Station
- Data Station

- Industrial Remote Access Routers and Data Gateways
- Easy Remote Access to PLC, HMI, IPC, and More
- 3G+ HSUPA
- Serial, CAN, or Industrial Ethernet
- Secure VPN Remote Access
- Data Logging and Retrieval
- UL Class I, Division 2

- Turnkey Solutions for Lightning & Surge
- Signal, Data, AC, Telecom., Power Protection
- External Lightning Protection for Facilities
- DIN Rail and Field Power Supplies
- Circuit Breakers, Batteries, Power Converters

Automation and Control Products

Line Sheet from Process Solutions Corp.

- Thermal Mass Flow Meters and Controllers
- Coriolis Flow Meters (<1 gram/hr)
- Custom Manifolds for Flow & Pressure
- World's Most Versatile Mass / Flow Meters / Controllers for Gases & Liquids

- Pressure Transducers (MEMS Tech)
- Single Piece of Metal, No Welds, Cavities, or O-Rings
- Pressure Spike Tolerant

- Water Level Sensors and Data Loggers
- ±0.05% Full Scale Accuracy
- Conductivity, Temperature, & Depth in One Unit

- Valve Position Sensors, Downhole Well Monitoring
- GE and Westinghouse Replacement LVDTs
- Submersible CAN BUS Communications LVDTs
- Industrial Gauging, Process Control

- Level Transmitters and Level Switches
- Guided Microwave & Non-Contact
- Ultrasonic, Capacitive, and More
- Magneto-Strictive

- Thermal Dispersion Flow Switches and Meters
- Level Switches
- Easy, User-Friendly Setup
- Integral and Remote Style Electronics Enclosures
- Approved for Installation in Hazardous Area Locations

- Controlled Evaporative Mixer, Precise Liquid Dosing
- POWER-ON, Redundant Industrial Power Backup
- Custom Programming and Design, Electrical Engineering
- Training, Troubleshooting, and Technical Support

- Analyzers and Detectors
- Liquid and Gas Detection for H₂S, CO₂, oils, and more
- Combustion and Emission Monitoring, Calibrations
